TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, HTML5, CSS3
Frontend Frameworks: React.js, Next.js, Redux, Tailwind CSS
Backend & APIs: Node.js, Express.js, REST APIs, JWT Authentication
Databases: MongoDB, Firebase Firestore, Firebase Realtime Database
Cloud & Hosting: Cloudflare, Cloudflare Workers (Serverless Functions), Firebase App Hosting
DevOps & CI/CD: GitHub Actions, CI/CD Pipelines, Vercel, Render, Cloudflare Deployments
CMS & Integrations: Notion CMS, Third-Party API Integrations, Webhooks
AI Developer Tools: GitHub Copilot, Cursor AI
Version Control & Tools: Git, GitHub, Postman

WORK EXPERIENCE

Full Stack Developer Intern

Sep 2025 – Dec 2025

Indian Capital and Investment (Coimbatore) Limited

Remote

- Built and deployed a scalable Notion-based database system using Cloudflare Workers for fast, serverless data handling on tempusmail.com.
- Integrated Notion CMS with a custom attention-mechanism-based content prioritization system to enhance content visibility and retrieval efficiency on blog.tempusmail.com.
- Developed premium features including Firebase Authentication, Google SSO, secure payment gateway integration, Telegram alerts, and automated email notifications for users on premium.tempusmail.com.
- Implemented Firebase Cloud Functions for domain and email account management, managed Cloudflare DNS records, and ensured seamless connectivity between premium and admin panels via premium.tempusmail.com and panel.tempusmail.com.

Full Stack Developer Intern

Jul 2024 – Jan 2025

Unified

Remote

- Created and enhanced responsive UI screens using React.js, Next.js, Tailwind CSS, and Redux, improving load speed by 35% and increasing overall UI consistency.
- Architected and improved backend REST APIs in Node.js, Express.js, and MongoDB, reducing API latency by 40% and strengthening authentication reliability across services.
- Orchestrated CI/CD deployment pipelines on Vercel and Render, achieving 99% deployment success rate and reducing manual deployment time by 70%.

PROJECTS

Resumind AI – ATS Resume Optimizer & Job Matcher

GITHUB

React.js, Node.js, Express.js, MongoDB, Redux Toolkit, Tailwind CSS, Clouinary, DeepSeek AI

- Designed and executed an AI-powered ATS Resume Analysis and Job Matching platform with 99.9% uptime during beta testing and stable performance for concurrent user traffic.
- Built an automated scoring engine (0–100) with keyword extraction, tone analysis, action verb detection, buzzword removal, and weak verb identification, improving match accuracy by 40%.
- Developed AI-driven bullet rewriting, tone rewriting, and personalized enhancement suggestions, reducing users' resume editing time by 35–50%.

Tinyfy: A Modern Link Management Platform

GITHUB

React.js, Node.js, Express.js, MongoDB, Redux Toolkit

- Constructed a full-stack URL management platform with a scalable REST API, optimizing redirection performance and ensuring 99.8% API uptime.
- Developed an analytics module to track user clicks, device types, and location-based insights, improving metrics accuracy by 95%.
- Enforced temporary URL functionality with expiration rules, enhancing workflow flexibility and reducing invalid link usage by 30%.

EDUCATION

Chandigarh University

B.E. in Computer Science and Engineering

Mohali, Punjab

Aug 2020 – Jun 2024
